

Starick Strategic Plan 2021-2025

Our Vision

A future free from violence for women and children.

Our Mission

Partnering with families and communities to provide specialist services to prevent family and domestic violence and reduce its impact on women and children.

We will do this by...

- Providing a person-centred service delivery model for positive, sustainable outcomes for women and children
- Creating strong partnerships and collaboration
- Advocating for safe and just communities
- Educating children and adults to build respectful relationships to prevent family and domestic violence
- Implementing strong organisational and practice governance (our enablers)

Help us help others

Starick

Our Strategic Objectives

Person-centred service delivery model that is focused on positive, sustainable outcomes for women and children

That listens to and engages with our clients, including children and young people, is culturally safe, is outcomes focussed, is data and evidence driven, and works holistically across crisis intervention, early intervention and prevention

Strong partnering and collaboration

Partnering with communities, other services and sectors, in alignment with WA's Path to Safety, to achieve positive change into the future, to support our clients and meet their needs now and to drive innovative, properly funded service delivery and design

Advocating and educating for safe and just communities

Being champions for innovation and positive change, with a voice at every level of Government. Effectively raising awareness in the community about the problem of family and domestic violence and gaining buy-in for contemporary solutions.

Our Values

- 1 Passion
- 2 Respect
- 3 Diversity
- 4 Commitment
- 5 Professionalism
- 6 Integrity
